About Sapphire Fashions

Sapphire Fashions is a Government Recognised One Star Export House based in Jaipur, Rajasthan, founded in 2009. We manufacture high-fashion ladies' and men's garments for design houses and brands across France, the United Kingdom and the United States.

Our work sits at the intersection of Rajasthan's centuries-old textile craft — hand embroidery, block printing, handloom weaving — and the precision and consistency that export-scale manufacturing demands. We are a vibrant, challenge-driven organisation that thrives on mastering intricate silhouettes and merging traditional technique with contemporary design.
